

**Public Testimony of the Friends of the National Institute of Mental Health**

**Fiscal Year 2023 Appropriations for the National Institutes of Health and the National Institute of Mental Health**

**United States House of Representatives Committee on Appropriations  
Subcommittee on Labor, Health and Human Services, Education and Related Agencies**

**May 26, 2022**

Chair DeLauro, Ranking Member Cole, and Members of the Subcommittee:

We write on behalf of the Friends of NIMH, a coalition of more than 30 organizations representing scientists, physicians, health care providers, individuals, families, and communities. The members of the Friends of NIMH are dedicated to supporting the mission of the [National Institute of Mental Health](#) (NIMH) to transform the understanding of mental health and the treatment of mental illnesses through basic behavioral, biomedical, and clinical research, to best inform prevention, early intervention, recovery, and cures. We encourage you to provide robust funding for NIMH in FY 2023 so that the institute can build upon the significant achievements to advance the behavioral, biomedical, and social research mission and important initiatives to provide new insights and solutions to benefit your constituents.

Our member organizations represent communities with interest across the National Institutes of Health (NIH). Individually and collectively, our members also belong to the Ad Hoc Group for Medical Research, a coalition of over 330 patient and voluntary health groups, medical and scientific societies, academic and research organizations, and industry that support enhancing the federal investment in the behavioral and biomedical research conducted and supported by the NIH. Aligned with the Ad Hoc request, **we respectfully request that the subcommittee provide at least \$49 billion to NIH in Fiscal Year 2023, and that NIMH receive an increase in proportion to any increase to the topline NIH budget.**

Thank you for considering this request,

Friends of NIMH Co-Chairs
